DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Robert on 10/29/04.

Claims 19-20 have been cancelled .

Allowable Subject Matter

2. Claims 1-18 and 21 are allowed over the prior art of record.

The following is a statement of reasons for the indication of allowable subject matter: Applicant has claimed uniquely distinct features in the instant invention which are not found in the prior art either singularly or in combination a method of testing a graphical user interface, comprising: selecting a widget of the graphical user interface; associating an access mode with the widget; generating a mode-specific input message based on the mode; widget and the access sending the mode-specific input message to the graphical user interface; detecting a mode-specific response from the graphical user interface using a detection tool; and evaluating the graphical user interface based on the mode-specific response. These features are not found or suggested in the prior art.

Art Unit: 2173

The present invention is directed to selecting a widget of the graphical user interface; associating an access mode with the widget; generating a mode-specific input message based on the mode; widget and the access sending the mode-specific input message to the graphical user interface; detecting a mode-specific response from the graphical user interface using a detection tool; and evaluating the graphical user interface based on the mode-specific response. Each independent claim is identified “generating a mode-specific input message based on the mode; widget and the access sending the mode-specific input message to the graphical user interface; detecting a mode-specific response from the graphical user interface using a detection tool; and evaluating the graphical user interface based on the mode-specific response”. The closest prior art Dodson and Jaaskelainen, Jr. discloses a conventional the characteristics are then analyzed by the generic GUI manager to determine which type of widget to use to display the data; either singularly or in combination fail to anticipate or render the above underline limitations obvious.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
